PROFESSIONAL SUMMARY:

Over 2 years of professional experience in frontend development, specializing in building modern, responsive web applications. Accomplished in translating design mock-ups into clean and efficient code using HTML, CSS, and JavaScript, React with a keen eye for detail and user experience optimization. Proficient in popular frontend frameworks and libraries such as React.js with a proven track record of delivering high-quality projects on time. Seeking a challenging role where I can continue to grow my skills and contribute to innovative frontend solutions.

Skill Set: HTML CSS Bootstrap JavaScript React Js, Rest Api's

Experience:

UI DEVELOPER:

Potla Tech Solutions Pvt Ltd, Hyderabad

Aug 2022 – (Till-Now)

1) HRMS (Human Resource management System): Sep-2023 – Till Now

- Played a key role in the development of a comprehensive HRMS (Human Resource Management System) application, focusing on designing and implementing intuitive and responsive user interfaces for various modules including employee management, attendance tracking, leave management, and payroll processing.
- Utilized React.js framework to develop reusable UI components and enhance code maintainability and scalability, resulting in improved development efficiency and reduced time-to-market.
- Conducted usability testing and gathered feedback to iteratively improve the user experience and interface design, ensuring user satisfaction and engagement.

2) School Management System:

Jan-2023 – Aug-2023

- Spearheaded frontend development efforts for a comprehensive School Management System project, focusing on designing and implementing user interfaces for student enrolment, attendance tracking, gradebook management, and communication tools.
- Collaborated closely with designers to translate wireframes and mock-ups into pixel-perfect and responsive web pages using HTML, CSS, and JavaScript.
- Leveraged React.js framework to develop reusable components and streamline frontend development processes, resulting in improved code maintainability and scalability.
- Conducted usability testing and gathered feedback to iterate on user interface designs, enhancing user experience and engagement.

- Actively participated in team meetings and code reviews, contributing to the continuous improvement of development practices and standards within the organization.

2)Telugu Web Media

Aug-2022 - Dec-2022

- Contributed to the development of a Telugu Web Media platform, focusing on designing and implementing intuitive and responsive user interfaces for news articles, videos, and other media content.
- Added a function that allows news articles to be posted by category and subcategory. In addition to images and videos for post
